# ORAL HEALTH IN MICHIGAN

Despite efforts, significant needs exist

## Fewer Michigan residents are receiving dental care

Adults **not visiting** a dentist in the prior year **increased 17%** from 2002 to 2012

**Preventable dental care** provided to children in operating room visits cost **\$7.9 million** in 2011

of Michigan's residents **lacked dental insurance** in 2015

**More than 1 in 4** third graders had **untreated dental disease**

## Seniors, pregnant women, low-income children and other special populations are at risk for poor oral health outcomes

**More than one-third** of all Michigan seniors have **lost six or more natural teeth** due to tooth decay or gum disease.

**Approximately 40%** of children who are covered under Healthy Kids Dental **did not receive dental services** in 2014

**3 out of 4** new mothers in 2008 **did not receive any dental care** during their most recent pregnancy
